

Useful Information

Weight  g = gram kg = kilogram 1 kg = 1000 g	Volume  ml = millilitres l = litres 1 litre = 1000 ml	Length mm = millimetres cm = centimetres m = metres km = kilometres 1 cm = 10 mm 1 m = 100 cm 1 km = 1000 m
Temperature  °C = degrees Celsius or Centigrade	Money  p = pence £ = pounds £1.00 = 100p	

Time

a.m. = 12 midnight until 12 noon

p.m. = 12 noon until 12 midnight

1 minute = 60 seconds

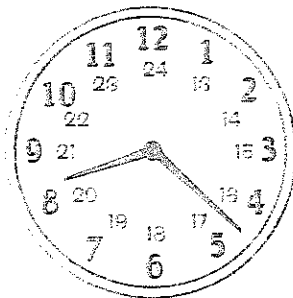

1 hour = 60 minutes

1 day = 24 hours

1 week = 7 days

1 year = 12 months = 365 days

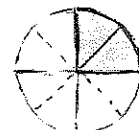

1 leap year = 366 days

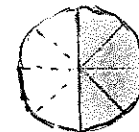

08:23

20:23

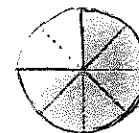

"30 days has September, April, June and November. All the rest have 31. Except February alone which has 28 days clear and 29 each leap year."

$= \frac{1}{4} = \frac{2}{8}$

$= \frac{1}{2} = \frac{2}{4}$
 $= \frac{4}{8} = \frac{5}{10}$

$= \frac{3}{4} = \frac{6}{8}$

$= \frac{1}{3} = \frac{2}{6} = \frac{3}{9}$

Fractions

Thousands	Tens	Units	Tenths
3	4	2	1
Hundreds	Units	Decimal place	

= three thousand four hundred and twenty one.

= nine point one
