

ACHIEVEMENT ASSEMBLY

Friday 16th May 2025

SPORTING SUCCESSES!

- Harry recently won a trophy after he came first in a local darts competition!

- Emilian won a trophy and a medal after he came third in a karate competition!

DUATHLON!

Well done to Elliott!

He ran 1.2km, cycled 4km, and ran another 400m to the finish line. He completed the track in an impressive 22 minutes!

He trains every Saturday morning at the Carver Barracks airfield with the Walden Jnr's triathlon club

MATHS CHAMPS!

- Well done Iestyn for 'Going Green' on TT Rockstars!
- This means that these children can recall all of their timetables (including division) in under 4 seconds per question!

BEHAVIOUR HERO OF THE WEEK!

- Led by our student council behaviour ambassadors:
Alice and Rocco!
- One behaviour superstar is chosen each week by the learning support assistants/ midday supervisors.
- This might be someone who:
 - Does something really kind or helpful;
 - Is always extremely polite and respectful;
 - Shows excellent learning behaviours;
 - Goes out of their way to help someone else.

FROM THE...

In History, Minnows have been learning about The Great Fire of London. The children analysed sources of evidence to find out why the fire burned down so many houses. They drew images of the Great Fire and annotated them with reasons why the fire spread so widely.

A yellow scroll graphic with a blue outline, featuring decorative scroll folds at the top-left, top-right, and bottom-left corners. The text is centered on the scroll.

The Sewing Machine

Do you know what the sewing machine is? Do you know how it changed lives? If not, look further down this page to find out what it was, and how it changed life forever...

The First Ever Sewing Machine

In 1846, Elias Howe created the first ever sewing machine. It saved people having to sew by hand, and was much quicker. ~~It sewed~~ By 1900's it sewed clothes, tents, sails, bags, bookbindings, umbrellas and even flags. Even now, we still use these sewing machines, helping us day by day, year by year.

What Inspired Him?

Elias Howe created the wonderful sewing machine, but what inspired him? Well, Howe found that there was need for a more efficient way to make clothing, a faster way. So, he thought a little and came up with the sewing machine.

Monday 12th May

to research inventions and their impact on Victorians.

The Underground RAILWAY

The inventor:

Charles Pearson is credited with proposing the first underground railway in London, followed by the engineers, including Sir John Fowler and James Henry Greathead who oversaw the construction of the world's first passenger-carrying underground railway.

How long did it take to make:

The first section of the London Underground, the Metropolitan Railway, opened in 1863. It took 21 years (from 1842 to 1863) to complete the inner circle of the tube lines in central London. The first deep-level electrical tunnel wasn't opened for another 30 years.

Charles Pearson:

Charles Pearson (14 October 1793 - 14 September 1862) was a British lawyer and politician. He was Solicitor to the City of London, a reforming campaigner, and - briefly - Liberal party member of parliament for Lambeth.

How did the Underground change people's lives?

The London Underground or the tube revolutionized daily life in London by significantly improving transport, enabling suburban growth, and ultimately shaping urban development. It provided a faster and more efficient way to travel within the city, allowing people to live and work in different areas without lengthy commutes. This had a profound impact on London's demographics and urban landscape.

The Penny Farthing

The Penny-farthing was the first version of the bicycle - a well-known method of travel we still use today. Invented by James Starley in 1871, the Penny-farthing consisted of a seat upon one very large wheel, with a much smaller wheel behind it. The pedals were in the middle in the centre and went outwards slightly so that the user's feet would be able to reach them. Children were too short to use the penny-farthing, so it was mainly used by adults or people with long enough legs.

Why was

Why was it called the Penny-farthing?

It was called the penny-farthing to represent the different sizes of the British pennies and farthings. The penny was the larger wheel and to represent the penny: a round circular coin with a picture of Queen Victoria on one side and a knight holding a spear - trident type of thing. The farthing was a coin similar to a penny. It depicted the picture of a bird crouching slightly. The

farthing was considered as a "quarter of a penny" like how the smaller wheel on a penny-farthing was roughly a quarter of the larger wheel.

Who actually was James Starley?

James Starley was (at the time of inventing the Penny-farthing) 41 in 1871. He was born in 1830, and died in 1881 on the 17th of June, about 10 years after he invented the penny-farthing. Surprisingly, he died in the middle James lived for a decent amount of time, considering that the life expectancy for people back then was about 40 to 42 years old. Sadly, he died of cancer, but with his contribution to the bicycle will never be forgotten.

What else did he invent?

James Starley invented quite a few things, actually, one of them including the penny-farthing. Other things include:

- The tricycle (a bicycle with 3 wheels.)
- The Clarendon (making the differential gear safer)
- The Clarendon (the safety gear on a bicycle)
- The differential gear (the gears on the bicycle penny-farthing)

WELLBEING WEEK 2025

Monday: Get Creative	Tuesday: Be Mindful	Wednesday: Keep Learning	Thursday: Be Active	Friday: Connect
Big Paper Plates Art Project!	The CORAM tent will be in school!	‘Learn a New Skill’ tutorial sessions	AM: Army Boot Camp PM: Debden Ultra- marathon	House Bingo!

Wellbeing Week begins on Monday, with an assembly with Mrs Bailey on Monday morning.

Aim:

Create a piece of art
that represents
everything about YOU!

Deadline:

Monday 19th May

Winners:

There will be winners
announced for each
class!

How could you represent 'you' in art?

Painting

Drawing

Collage

Sculpture

Textiles

Printing

SCHOOL PRAYER

Dear God,
Thank you for our school community,
For our friends and family
And those who help us to Nurture, Progress and Excel.
Bless our school.
Help us all to follow your ways,
Be kind to others and to always do our best,
So that we may have life in all its fullness.
Amen

HAVE A GREAT WEEKEND!
